PROFILE

Dedicated Computer Science & Engineering student currently in the 3rd year of B.Tech, with a solid academic foundation and practical skills, demonstrated by completing a diploma in Computer Science & Technology with an OGPA of 8.9. Passionate about technology and eager to learn and apply new concepts.

EDUCATION

SUPREME KNOWLEDGE FOUNDATION

Bachelor of Technology in Computer Science & Engineering
Cumulative GPA: 7.67/10.0;

Hooghly, WB

Expected Jun 2027

ACHARYYA PRAFULLA CHANDRA RAY POLYTECHNIC, JADAVPUR

Diploma In Computer Science & Technology : Overall GPA: 8.9 / 10

Kolkata, WB

Oct 2021 - July 2024

PROJECTS

AgriGuru: An Intelligent Advisory System About Farming

July, 2025(Ongoing)

Developed a full-stack agricultural advisory platform using Flask (Python) backend and ReactJS frontend, deployed on AWS with Docker containerization. Implemented MongoDB for flexible data storage to support 5,000+ daily users, delivering responsive performance for agricultural applications. Built intuitive UI components and RESTful APIs that provide real-time weather forecasting and crop management tools, resulting in 40% improved user engagement and equipping farmers with actionable data-driven insights to optimize crop yields. **Tech Stack:** ReactJS, Flask, Python, MongoDB, Docker, VS Code, JavaScript.

MindScape: Decoding expressions, delivering enlightenment

May, 2025(Ongoing)

Developed a full-stack web application that combines React frontend with Flask backend to create an AI-powered mental wellness platform. MindScape integrates TinyLLama, a lightweight language model, to provide users with spiritual guidance and concise wisdom inspired by the Bhagavad Gita and implements facial recognition technology using face-api.js. The application features a clean, responsive interface that delivers AI-generated insights through an intuitive chat experience.

Tech Stack: JavaScript, React, Python, Flask, TinyLLama AI model, RESTful API integration

ADDITIONAL

Technical Skills: Proficient in Python, C, C++, JAVA. JavaScript, React.js, Node.js, Mongo DB

Soft Skills: Communication, Presentation

Languages: Fluent in English, Bengali and Hindi

ACHIEVEMENTS

Finalist in Infosys Global Hackathon 2025

August 2025
